## SOFTWARE

JavaScript | React | Ruby on Rails  
Redux | SQL | TDD | RSpec | AWS  
Heroku | Ruby | JQuery | HTML 5  
CSS | Git | SQL | Photoshop | OOP

## WORK EXPERIENCE

### The Dodo, New York, NY - Jan 2016 - Mar 2017

Social Media Manager - Managed The Dodo's Facebook account. Helped increase page likes by over 300% in a period of 10 months. Created presentations to support video and editorial teams in developing Facebook-optimized content.

### The Dodo, New York, NY - June 2015 - Jan 2016

Social Media Editor - Increased The Dodo's audience on Twitter by 98% in six months and their audience on Instagram by 66% in two months. Was in charge of creating content calendars and analytics presentations for both platforms.

## PROJECTS

### Delish- React, Ruby on Rails

- A full-stack application inspired by New York Times Cooking – it allows users to browse, bookmark, and share recipes.
- Utilized AWS S3 to allow users to store recipe images in the cloud. References to images are saved as attachments in a PostgreSQL database.
- Used a polymorphic association on Likes model - enables users to like both Recipes and Comments.
- Optimized user experience by using SASS media queries and defining specific breakpoints to create a consistent layout across multiple browsers sizes.

### The Legend of Chibi - JavaScript, HTML

- Utilized HTML Canvas for pixel control, custom animations, and smooth game play.
- Leverages object-oriented design, using class inheritance for dry code.
- Limits draw speed and leverages multiple canvas elements for seamless rendering and player interaction.

## EDUCATION

### App Academy, 2018

1000-hour immersive full-stack web development intensive with <3% acceptance rate. Teaches Rails, SQL, JS, React, TDD, algorithms, design patterns, and programming best practices.

### Wesleyan University, 2015

Bachelor of Arts: English Literature, Film Minor
